1 PUPIL IN 5  
HAS PROBLEMS,  
STOUFFER SAYS

One child in every five in the public schools of Adams County has a serious problem of one kind or another, Dr. George A. W. Stouffer Jr., supervisor of special education in Adams and Perry Counties, told members of the Gettysburg Parent-Teacher Association Thursday evening at the high school building.

Dr. Stouffer, who said that about half the pupils in the public schools are normal while the others range from very dull to very bright, described plans for helping the slow and stimulating the advancement of the gifted but added: "These things all cost a lot of money. We can do them as soon as you taxpayers decide you want to foot the bill."

Noting that the figures in Adams County are almost identical with state averages, Dr. Stouffer reported on a recent survey of the more than 7,400 public school pupils in this county. Nine per cent were found to have low intelligence; 5 per cent with high intelligence; 0.2 per cent with very defective vision; 1 per cent with severe hearing loss; 4 per cent with speech problems and 1 per cent in delicate health.

National IQ Snipping

Dr. Stouffer described briefly the "tremendous and very complicated problems" of mass education in Pennsylvania today and added: "Everybody seems to know more about how to run the schools than the teachers and administrators who are in charge."

Billion Dollar Cut In U.S.  
Sales, Excise Taxes Seems  
Assured; Effective April 1

By JOE HALL  
WASHINGTON (AP) — A cut of about a billion dollars yearly on sales taxes seemed assured today with Senate passage of a \$1,034,000,000 reduction bill.

The cuts will take effect next Thursday.

The Senate approved the bill last night 76-8 after two days of lively debate filled with political overtones in a congressional election year.

To Conference Monday  
It was sent to a Senate-House conference, which cannot take place before next Monday afternoon, since both branches are in recess until then.

But Sen. Millikin (R-Colo.), head of the Senate negotiators, said in an interview today he is confident the conferees will act speedily and rush the measure to President Eisenhower. The deadline for the President's signature is next Wednesday midnight.

Both branches voted identical cuts on many items, so they are certain to be in the final compromise version.

Expect Ike To Sign  
They include furs, jewelry, handbags and luggage, cosmetics, sporting goods, admission tickets to movies costing over 60 cents, train-bus-plane passenger fares, telephone bills, telegraph charges, mechanical pens and pencils, lighters and electric light bulbs.

Millikin and other Republican leaders predicted the President will sign the bill, although the administration urged against the excise cuts.

The billion-dollar loss in revenue will add that much to the \$2,900,000,000 deficit already forecast for the new financial year starting July 1.

Items To Be Threshed Out  
The bill also extends for a year, to April 4, 1955, a series of 1951 increases in major excises. These (Continued On Page 2)

DECLARES "Y"  
WORK STARTED  
MANY YEARS AGO

"As far back as the time of 'Little Women' in Louisa Alcott's famous story of Meg, Jo, Beth and Amy, the ground-work for the Young Women's Christian Association was laid," declared Miss Helen E. Mummery, executive of the Harrisburg Y, at the annual dinner-meeting Thursday evening at the local YWCA.

Speaking before a gathering of over 100 Y members and guests, Miss Mummery, who has had extensive experience in Y work, outlined the history of the association and told how girl groups were formed after the Civil War.

"As the years passed," she said, "more and more small clubs and organizations of girls were formed until World War I when the famous 'Girl Reserves' was organized. The lighted candle became a symbol across the nation representing purpose, faith and steadfastness. Leaders of the organization aimed to give a richer life to the young women and to help them embark on worthwhile projects."

Start Many Projects

"Various projects were started such as cooking classes, sewing clubs and nursing groups. From the very beginning, the Y leaders have tried to use the creative genius of youth."

Miss Mummery explained that "Y-teens are not only members of the local Y but they belong to the nation and to the world. Their desire is to make friends with girls all over the world. When a Y member travels to a foreign country, she is met by Y members at the port with a scarf which she waves in a circle. The waving scarf has become an arc of friendship all around the world to banish unfriendliness and conditions which create war."

"We realize that teen-agers are human beings seeking to express themselves. They want to be respected in their own right. They want to help solve the world's (Continued on Page 5)

## JOE ADONIS IS CONVICTED ON PERJURY COUNT

WASHINGTON (AP)—Joe Adonis, long called a racketeer but rarely convicted until recent years, now faces perjury penalties unless his appeal is successful.

He was convicted yesterday in U.S. District Court here of perjury for telling Senate crime investigators in December, 1950, he was a United States citizen. He is free under \$10,000 bond, pending sentencing which could be for a maximum of five years in prison and \$10,000 fine. His attorney has announced he will appeal.

Adonis' record up to 1951 included at least 13 arrests. The worst that happened to him in that period was a \$500 misdemeanor fine for illegal possession of alcohol in 1927.

**Convicted In 1951**  
But he was convicted in New Jersey in May, 1951, sentenced to two to three years in prison and fined \$15,000 on gambling conspiracy charges.

Early this year he was convicted in New Jersey on charges of lying to a Bergen County grand jury about his birthplace. He received another two-to-three-year sentence, but this was suspended pending the outcome of the government's deportation proceedings.

The government wants to send Adonis to Italy, where it says he was born Nov. 22, 1902. He has a suit pending in U.S. District Court here to prevent being sent away.

## N.Y. Harbor Tugboats Pass Picket Lines

NEW YORK (AP)—Harbor tugboats—the vital cogs in New York's vast waterfront operations—steamed along as usual early today despite orders to observe picket lines of striking longshoremen.

Late in the morning a union spokesman said tugboat crews were being "officially" notified they were expected to respect picket lines and that they were complying "gradually."

He said the union did not expect full compliance until "about tomorrow night."

## Would Permit Draft For European Army

BONN, Germany (AP)—President Theodor Heuss today signed amendments to the constitution permitting West Germany to conscript men for the European Army. The signature cleared the way for final ratification by the Bonn government of the European Defense Community and the associated treaty with the Western Allies giving West Germany near sovereignty.

None of these take effect, however, until the five other proposed members of EDC ratify the treaties for bringing German troops into a single-uniform army with them for Western defense. Only Belgium and the Netherlands have completed ratification.

France and Italy are expected to take time, with more bitter wrangling, before their action. Luxembourg, the other state involved, also has taken no action yet.

## BAPTISTS WILL PRESENT FILM SUNDAY NIGHT

A color-sound film, "God Is My Landlord," will be shown at the First Baptist Church, S. Stratton St., Sunday evening at 8 o'clock. There is no admission and the public is invited.

The film tells the story of Perry Hayden, the "Quaker Miller" of Tecumseh, Mich., who planted a cubic inch of wheat in 1940 which grew in six years to cover 2,666 acres producing 72,150 bushels of wheat worth \$150,000.

Requiring filming over a period of six years, the picture depicts what has been called "the greatest tithing demonstration in history."

Hayden, head of a milling firm in Tecumseh, decided on the experiment after hearing a sermon September 22, 1940, on John 12:24, relating to wheat. He planted 360 kernels of wheat seed in one cubic inch on a plot of ground four by eight feet donated by the late Henry Ford and decided to pay a tithe of the crop. Ford continued to supply the land as additional acreage was needed. Farmers of 30 denominations, Protestant and Catholics, made the harvest of 72,150 bushels in 1946.

A conclusion of Sunday's service members of the church will be given an opportunity to make a pledge to the work of the church for the coming year.

## Billion Dollar

(Continued from Page 1)

will bring in \$1,077,000,000 in added revenue. But the President had counted on this in figuring his next year's budget. Involved are automobiles and trucks, gasoline, tobacco, liquor and beer.

As the House passed the measure, it cut a variety of excises by \$12 million dollars. The Senate eliminated a few House reductions, but made other big ones of its own.

The House voted reductions for admissions to horse and dog tracks and to night clubs and other cabarets, and for club dues, safety deposit boxes and pistols. The Senate rejected these. They will have to be thrashed out in conference.

The two biggest items in dispute will be a 100-million-dollar slash voted by the Senate on such household appliances as refrigerators, stoves and electric irons and a 65-million-dollar cut through wiping out of the admissions tax on movie tickets and others costing less than 60 cents. The House voted to cut the admissions levy from 20 to 10 per cent.

Some congressional sources indicated one likely compromise on this might be to eliminate the reduction on appliances but to accept the Senate provision on the lower priced tickets.

Senators Byrd (D-Va.) and Williams (R-Del.) won a surprising amount of support in the Senate last night for a move to knock out all of the cuts in the bill except the 217 million on admissions.

**Some Efforts Defeated**  
They charged it was irresponsible to cut taxes heavily in the present perilous world situation and with the budget unbalanced this year and next.

The Byrd-Williams amendment lost 54-36.

The Senate beat down by larger votes efforts of a group of Democratic senators to cut auto excises from 10 to 7 per cent, an aggregate of 275 million dollars, and to trim 80 million by cutting in half the 10 per cent levies on television and radio sets and phonographs. The auto proposal lost 63-25; the radio-TV one, 64-23.

## May Ignore Senators For Court Position

WASHINGTON (AP)—The possibility existed today that Francis van Dusen may be nominated for a seat on the U.S. District Court for the eastern district of Pennsylvania without the approval of Sens. Edward Martin or James H. Duff.

A source close to Pennsylvania politics, who asked not to be identified, said yesterday the Justice Department may recommend Van Dusen, a Montgomery County resident who practices law in Philadelphia.

Duff and Martin agreed a month ago on John W. Lord and John Miller for District Court vacancies in eastern and western Pennsylvania, respectively. They were described yesterday as being highly displeased by the development on Van Dusen's nomination.

They presumably could block the nomination when and if it came before the Senate.

There are six federal judgeship vacancies in Pennsylvania—three in the east and three in the west. Van Dusen has been mentioned as a possible nominee for the past year.

**PENNSBURG, Pa.** (AP)—Six-year-old Ernest Paulus of nearby Red Hill was injured seriously last night when struck by an auto on Rt. 29 near his home.

Police Chief Arthur Simon said the auto was driven by the Rev. Leo J. Letterhouse of East Greenville. The priest is in charge of the parish there and also in nearby Green Lane.

The youngster is in Quakertown Community Hospital with head injuries, a fractured leg and cuts.

## Veteran Cop Who Gave 56 Blood Transfusions, Helped Deliver 20 Babies Is Slain By Negro

PITTSBURGH (AP)—Patrolman William Heagy, 50, a veteran of Pittsburgh police force for 27 years, was fatally shot last night in a bullet-spattered chase with a gunman.

Heagy, called the force's champion blood donor, died three hours after he was hit in the back. Under arrest is Al Spaulding, 31, who says he is a former heavyweight boxer.

Police Supt. James Slusser said Spaulding, a negro, will be charged with murder. Spaulding was captured a short time after the shooting of the patrolman.

At last count, Heagy had given 56 blood transfusions to needy persons. He also had helped deliver 20 babies to expectant mothers en route to hospitals.

**Street Corner Argument**  
Slusser, who says he is a former heavyweight boxer, became involved in a street corner argument with a man known only as "Crazy Bill." Spaulding pulled a revolver and threatened to shoot "Crazy Bill."

A woman who lived nearby called police. Several officers rushed to the scene, among them Patrolman Heagy and Patrolman Joseph Shumaker.

Spaulding fled behind a fence and into a nearby home. Shumaker and Heagy followed him and battered down a door.

"Shumaker fell right into the hallway and Heagy fell on top of him," Slusser said. "Spaulding was in back of the door and shot Heagy in the back. Shumaker jumped up, saw Heagy on the floor and shouted to the other officers 'Cover me.'"

The other officers, who had arrived by that time, opened fire trying to hit Spaulding who fled. "Spaulding went over the rooftops and entered a nearby house, hiding in the bathroom. Our officers followed and captured him. He had a revolver on him. He apparently had tried to fire again but the weapon misfired, thank God."

Slusser, who assumed personal charge of the investigation, said: "This is an awful thing. We hope that we will be able to present a case which will end with Spaulding going to the electric chair."

## HOPE TO FIND SPECIAL PROBE COUNSEL TODAY

By G. MILTON KELLY

WASHINGTON (AP)—Senate investigations subcommittee members said today they hoped to pick by tonight a special counsel for the proposed public investigation of a row involving Chairman McCarthy (R-Wis.) and top Army officials.

Reported behind-the-scenes maneuvering to head off such a washing of linens, for which big-scale television and other coverage is planned, ran head on into opposition from a majority of the subcommittee's seven members.

Sen. Mundt (R-SD), named to preside at the televised public hearings, and three Democratic members of the group said in a separate interview the fight has gone too far to be dropped—that the bitter charges involved require a full public scrutiny to show where the truth lies.

### Work On Ground Rules

They went ahead with plans to choose a special counsel and to complete the writing of the special ground rules which an investigation involving the group's own chairman and staff members would require.

At issue are:

1. An Army report alleging that McCarthy and Roy M. Cohn, the subcommittee's chief counsel, exerted pressures on the Pentagon in efforts to get favored treatment for a drafted associate, Pvt. G. David Schine.

2. McCarthy's countercharge that Secretary of the Army Stevens and John G. Adams, assistant Army counsel, used "blackmail" tactics in efforts to block the subcommittee's investigations of Reds in the Army. McCarthy said Adams considered Schine "a hostage."

### Much Maneuvering

McCarthy, Cohn, Stevens and Adams have all denied the charges against them.

There have been persistent reports of quiet maneuvering to test whether the resignation of Cohn and Adams, and perhaps of Stevens too—if these could be arranged—might be enough to head off the public hearings.

McCarthy, Cohn, Stevens and Adams all are among those expected to testify if the hearings are held.

It was learned through interviews the controversy was discussed by some senators in the presence of White House aides at a private luncheon yesterday in the office of Mark Price, secretary of the Senate.

Rock formations on Bikini Island showed no signs of radioactivity from the 1946 atomic explosions when new explosions were arranged there in 1954 says the National Geographic Society.

## Holden And Hepburn Win Top Acting Oscars; "From Here To Eternity" Best Movie Of 1953

HOLLYWOOD (AP)—William Holden, the movies' favorite average guy, and Audrey Hepburn, its favorite princess, won Hollywood's top acting Oscars last night.

The movie "From Here To Eternity," tying the all-time record of eight awards, was named the best picture of 1953 at the 26th annual Academy Awards presentation.

Holden, who played a semi-beel in the movie "Stalag 17," was both happy and upset about his first Oscar. He was happy, of course, for winning the top honor but said he was "very upset" for having to hurry his acceptance speech due to the television time commitments.

### Holden Upset

"They told me to say 'Thank you' and get off," he said. "I wanted to give credit to Billy Wilder (the director of 'Stalag 17') for having so much faith in me. I think they could have held off the closing commercial just a little longer so that everyone could know how much Wilder was responsible."

Miss Hepburn, in stage makeup for her Broadway role of a water nymph in the play "Ondine," received her award in the New York portion of the show. Her first movie starring role was that of a princess on the loose in "Roman Holiday."

Visibly touched, the 24-year-old ex-ballerina said, "I am truly, truly grateful." She said it like she really meant it.

### Film Big Winner

"It's too much," she said. "It's like being given something to wear that you have to grow into. Something to work toward."

The sex-and-violence-filled "Eternity," a story of the pre-Pearl Harbor regular Army, captured awards for sound recording, film editing, cinematography, screenplay, direction and supporting actress and supporting actor in addition to best picture. The eight Oscars tied the former record held by "Gone With the Wind."

Donna Reed, as the prostitute of the James Jones best-seller (changed to a painted hostess in the movie), won her first Oscar in the supporting category. The role was a drastic change from the goodie-goodie roles which the Denison, Iowa, native had played for years in the movies. When her

name was called she ran all the way and her first words into the microphone were: "It was a long walk. I didn't know if I was going to make it."

### Honor For Sinatra

Frank Sinatra, wartime crooning idol of the nation's bobby-soxers, climaxed a thrilling career comeback in winning an Oscar for the best supporting role.

The Oscar for the best song went to "Secret Love," sung by Doris Day in "Calamity Jane" and by Ann Blyth on last night's show.

Fred Zinnemann, the director of "Eternity," won the top direction Oscar. He was the favorite by a close margin over George Stevens of "Shane." Stevens, however, walked off with the coveted Irving Thalberg Award for distinguished

### Disney Testimonial

The night started out like a testimonial banquet for Walt Disney. His cartoons and documentary films won four of the first six awards. They brought his total number of Oscars to 22, housed in a special anteroom at his office.

Millions watched and listened to the nationally broadcast awards show, which went off without a hitch. The show, with the accent on entertainment, was the best in years.

There are about 54 million motor vehicles in the United States.

By GEORGE MATTHEW ADAMS

**SOWERS OF SEEDS**

Now that springtime is upon us, there soon will be a sowing of seeds, far and wide. Seeds are the eyes of miracles! The farmer puts his faith within the seeds that he sows, and the lover of flowers and a blooming garden gains inspiration and spiritual enrichment as the dream of sleeping seeds soon demonstrate God in the world.

I once met an inspiring man in Miami, Florida—John C. Gifford—one of her most useful citizens. He sent me a little book, full of golden pay dirt. Here is one of his items: "One man can completely change the character of a single country, and the industry of its people, by dropping a single seed in fertile soil." Anyone, who has any doubt about actual miracles being performed in this day, has but to hold a single seed with in his hand, and know that, upon planting it, it will perform a miracle.

Most of us, who love to read of useful personalities and learn from them, have read about John Chapman, widely known as "Johnny Appleseed." All through fertile Ohio, and other mid-western territory, he learned how different varieties of apples could be improved by grafting, and then he would secure the seeds—and plant them far and wide, becoming one of our earliest benefactors. This was in 1799—but there are apple trees today that have as grandfathers and great-grandfathers the apple trees seeded by "Johnny Appleseed!"

A sower of seeds—what an occupation! A kind word, an act of love, a brave deed—a seed, planted in the good earth. They are all the same. And mankind blesses them all. It is the hope and prayer of this writer that these Talks, which have now been written daily over a period of thirty-five years, may have contributed seeds of faith, comfort and courage to ready minds.

Tomorrow Mr. Adams will talk on the subject: "The Singing Mind"

# ISRAEL APPEALS TO BIG 3 FOR ACTION ON ARAB BUS KILLINGS

UNITED NATIONS, N.Y. (P)—Israel appealed to the Western Big Three Thursday for immediate U.N. action on the Arab killing of 11 Israeli bus passengers in the Neg-eb Desert, but diplomats here anticipated the Security Council would delay action.

The council met late Thursday for further debate on Israel's charges that Egypt is blockading cargoes destined for her via the Suez Canal. U.N. sources believed the council would want to dispose of this matter before turning to the bus incident, for which Israel blames Jordan.

Jordan, which has denied responsibility for the ambush 12 miles from her border last week, informed U.N. Secretary General Dag Hammarskjold officially yesterday she would not meet with Israel to discuss their border troubles.

**To Meet Dulles**

Invoking a clause of the Palestine armistice, Israel had demanded the meeting last November during Security Council discussion of the killing in October of some 53 Arabs in an Israeli raid on the Jordan village of Kibya.

Spearheading the drive for immediate council action on the new Israeli charge, the Jewish nation's ambassador to the United States and the U.N., Abba Eban, planned to meet in Washington today with Secretary of State Dulles.

Eban was expected to press Dulles also for arms for Israel and a ban on such shipments to the Arab states, Israel Premier Moshe Sharett called for these in a speech to his Parliament in Jerusalem yesterday, though he named no nation as an arms supplier.

**Tension Mounting**

Sharett also instructed his ambassadors in London and Paris to press their nation's case there.

Representatives of the seven Arab states had called on Dulles Tuesday. Afterward they said they told him "mounting tension in the Near East . . . is caused by Israel!" and that they would regard an aggression against any one of the Arab nations "as being upon them all."

# Fine Breaks Ground For Pike Extension

WHITE HAVEN, Pa. (P)—Road-building equipment took over today from the dignitaries and began the task of transforming 110 miles of northeastern Pennsylvania into the latest addition to the Pennsylvania Turnpike system.

The multi-million dollar project officially got underway yesterday when Gov. John S. Pine thrust a silver spade into the earth five miles east of this Luzerne County borough, in a sparsely-populated section just inside Carbon County.

But even as the governor turned the spadeful of earth small earth-moving equipment chugged in the background.

A surprising crowd of several hundred were on hand for the brief ceremonies—surprising because a miserable mountain drizzle descended all during the dedication.

# HIKERS NEARING DESTINATION; SEE AQUEDUCT

ALONG THE C. & O. CANAL IN MARYLAND (P)—The Cumberland to Washington hiking expedition led by Supreme Court Justice William O. Douglas expected to come within 25 miles of its destination today. And as they walked along the old Chesapeake & Ohio Canal, drawing closer to the hustle and bustle of the nation's capital, they encountered a mute reminder of the old, slower days—a massive stone aqueduct which carries the canal over the Monocacy River.

The aqueduct, now overgrown and tumbling down in places, was a highlight of today's 22-mile walk from Camp Kanawha to Seneca, Md., just eight miles west of Rockville.

**Truck Ride Ahead**

The party had the choice of crossing the river on a railroad bridge which parallels the aqueduct if the old conduit proved impassable.

When they get to Seneca today, they plan to board trucks for a 12-mile ride to Poolesville, Md., where they will be guests tonight at the Izaak Walton Club.

They will truck back to Seneca for the start of tomorrow's final stretch into Washington.

# SIZE OF PENNA. STATE POLICE STAFF TO 1,900

HARRISBURG (P)—The size of Pennsylvania's state police force, already the largest in the nation, is due to be stepped up to an all-time high—1,900 men.

Col. C. M. Wilhelm, state police commissioner, said today a new class of recruits to be accepted May 1 will round out the complement to the ceiling imposed by the 1953 Legislature.

"We have a corps of good men—in fact, outstanding men," he said. "But we need it for the job that must be done in Pennsylvania."

The Keystone State's 41,000-mile highway system, most extensive in the United States, requires 800 men on duty at any given time.

In addition, 150 state police examine applicants for motor vehicle operator's license, visit garages throughout the state under the semi-annual automobile and truck inspection system and investigate fires.

The remainder performs criminal investigations and are on the lookout in rural areas which have no local police protection.

The 327-mile Pennsylvania Turnpike is now patrolled by 115 state police compared to 68 less than a year ago.

"Seventy per cent of our state police are assigned to traffic duty and the remainder is occupied with other duties," Wilhelm said.

**MARTIN VOTED NO**

WASHINGTON (P)—Sen. Edward Martin (R-Pa) was one of only a handful of senators opposing an amendment to the federal excise tax bill that would cut in half the present 10 per cent tax on household appliances. The measure passed the Senate, 64-23, Wednesday. Sen. James Duff (R-Pa) was not listed.

# FARM CALENDAR

**Apply Nitrogen** — An application of nitrogen on bluegrass pasture during March will provide earlier pasture, says Albert Cooyer, Penn State extension agronomist. He recommends 400 to 600 pounds per acre of a 10-10-10 fertilizer which provides phosphorus and potash, too. For efficient use, limit the pasture fertilized to one-quarter acre per cow.

**Orchard Caution** — Think twice before you plant a home orchard, cautions Carl Bittner, Penn State extension fruit specialist. Do not plant tree fruits unless you intend to take good care of them — including pruning, spraying, cultivation, and fertilization. Where space is limited, dwarf apple trees may be planted.

**Provide Space** — Poultrymen who start chicks early and do not put them on range later will need larger brooding quarters so enough floor space is provided as the pullets become larger, says F. H. Leuschner, Penn State extension poultry specialist.

**Clean Tractor Radiator** — A good spring housecleaning of the tractor radiator will insure longer radiator life by removing rust, scale, and grease and will increase the cooling efficiency, reminds Burton Horne, Penn State extension agricultural engineer.

**Pasture Poultry** — Poultry raisers who use a good legume-grass range will reduce feed costs. As Robert Lauffer, Penn State extension poultry specialist, explains it, a good range will supply green, tender, succulent, palatable, and nutritious forage all season.

**Creep-feed Pigs** — A complete balanced ration can be made available in a creep-feeder for suckling pigs, say Penn State extension livestock specialists. The creep-feeder should be located in a well-lighted area, handy accessible to the pigs.

Fresh water clams are parasites of fish for the early part of their lives.

# REPTILE IS KEY TO ICE PERIOD

LOS ANGELES (P)—Fossils of lizards and frogs tell more of pre-ice age climate than the bones of mastodons and sabre tooth tigers, says a zoologist. Large animals could easily walk away from an advancing glacier, but it might take a lifetime for a small lizard to crawl out of a large valley, Bayard Brattstrom, zoologist at the University of California at Los Angeles, reasoned. Thus bones of small animals unable to get away tell more about the climate of a particular area than those of more mobile beasts.

Studying small fossils from the La Brea tar pits, the zoologist determined that 50,000 years ago the Los Angeles basin was a grassy woodland covered with large oak and walnut trees, with probably less rain than it has now. Ponds and streams existed, however, since bones of turtles, frogs and toads were found in the tar.

# Turk Civil War Deed Spurs Mohair Trade

ANKARA (P)—Just before the outbreak of the U. S. Civil War Sultan Abdul Medjid of Turkey authorized the export of 2 male and 18 female Angora goats to the United States. Angora goats are the source of mohair and Turkey's policy had been to prohibit shipment of the goats to protect the local mohair market.

Turkish sources say the 2½ million Angora goats found today in Texas, Oregon and other states are all descended from the original 20.

As a result, American mohair output is now the largest in the world. Turkey is second and the United States is one of the biggest buyers of Turkish mohair.

Turks refer to this as Turkish economic aid to America.

Vegas area 10,000 years ago was a desert, but not as dry as now. Brattstrom said one million years ago Florida had a subtropical climate—reptiles and amphibians found there survived the inundating ice in more northern areas.

## Home-Run Balls Still Giving Branca Trouble; Phillies Win Slugfest; Tribe Rookie Shines

By RIP WATSON

Associated Press Sports Writer  
The dreaded home-run ball, which added Ralph Branca's name to the list of baseball's greatest "goats" in 1951, still is dogging the handsome right-hander.

Branca yielded three home runs—good for a total of six runs—in five innings yesterday against Cincinnati. The Redlegs went on to beat the Detroit Tigers 13-11. Wally Post, a .342 hitter with Cincinnati last year, hit the first with the bases empty, and pitcher Harry Perkowski added to Branca's embarrassment with a similar homer.

Then Hobie Landrith (240 last year) slugged one out of the park with the bases loaded.

### Football Score For Phils

The Philadelphia Phillies and Milwaukee wound up with a "football" score, 16-13 for the Phils, after a wild ninth inning in which the winners scored nine times and lowered six. Del Ennis belted two home runs and Stan Lopata one for the Phils, and Sibby Sisti, Jim Pendleton and Hank Aaron homered for the Braves.

Rudy Regalado, Cleveland's rookie sensation, slugged his sixth and seventh home runs of the training season as the Indians whipped the Chicago Cubs. The 23-year-old phenom also singled twice and now has a .447 batting average and 17 runs batted in.

Pittsburgh took over first place—that's right, first place—in the National League spring standings by choking off a desperate Philadelphia Athletics rally to squeeze out an 8-7 victory. The A's had scored twice and had two men on base when Ed McGhee fled out to end the game.

### Orioles Beat Giants

The Washington Senators slugged Billy Pierce, the Chicago White Sox' top lefty, for six runs in the second and chased him in the fourth while running up a 9-2 score against the Sox. Connie Marrero and Al Sima teamed up to hold the Sox to six hits, all singles.

Oh, yes, there was some good pitching elsewhere too. Bob Wiesler became the first New York Yankee pitcher to go seven games, and Tom Morgan added two more scoreless innings as the world champions blanked the Boston Red Sox 2-0. Outfielder Hank Bauer batted home both runs in the third inning.

Stan Musial made three hits and scored both runs in the St. Louis Cardinals 2-1 victory over Brooklyn, which shoved the Dodgers back into second place. Gerry Staley went seven innings for the Cards, allowing the only Dodger run, and Tom Poholsky finished up.

The Baltimore Orioles got three unearned runs from three New York errors and defeated the Giants 3-1, thereby giving the Birds the best record of the four clubs training in Arizona.

The club's front office said Rickey and Capital Airlines officials have negotiated to use a chartered plane for most of the club's trips this year.  
The only time the Pirates will utilize rail transportation, barring weather conditions, will be on the short trips between Philadelphia and New York and between Chicago and Milwaukee.

## Bowed Tendon Ends Hopes For Turn-To

NEW YORK (P)—The short but impressive racing career of Turn-To, the future book favorite for the Kentucky Derby, apparently was ended today, the result of a bowed tendon.

The 3-year-old Irish Colt, winner of the \$269,000 Garden State Stakes in October and the \$100,000 Flamingo Stakes at Hialeah in his last start, was withdrawn from the Run for the Roses as soon as owner Harry F. Guggenheim learned of the injury yesterday.

Thus the hopes of Guggenheim, wealthy owner of the Cain Hoy Stables, for a second straight derby victory went aglimmering. Last year his Dark Star, a 25 to 1 long shot, startled the turf world by beating Native Dancer by a neck in the classic at Churchill Downs. Three weeks later, Dark Star bowed a tendon and was retired.

## DECLARES "Y"

## Elect Directors

The following were elected to the board of directors of the local Y: Mrs. John S. Rice, for the second term; Mrs. Grace McDonnell, Mrs. Edwin H. Johnson, and Mrs. Wayne Keet, for the first term.

Howard and Mrs. Elizabeth Hennig, members at large; and Miss Nina Merrow of the Business and Professional Club and Miss Verna Kitzmiller of the Annie Danner Club were elected to the nominating committee. Mrs. William H. Pensyl was chairman of the nominating committee. She was assisted by Mrs. Fred Pfeiffer, Mrs. John D. Teeter, Mrs. Rice, Miss Margaret McIlhenny, Mrs. Charles L. Lauver and Mrs. Edith Bushman. The tellers were Mrs. Pfeiffer, Mrs. Teeter and Mrs. Jessie Easterday.

It was agreed that the membership year of the Y will be from March 1 to March 1.

Mrs. Frank H. Kramer, president, presided and welcomed the guests. Dr. Harold A. Dunkelberger gave the invocation. Mrs. Clarence C. Smith led the worship service entitled "The Centennial Prayer" and Miss Ruth Koser was the accompanist for the group singing of "God of Our Fathers."

Give Financial Report  
Robert Lauffenberger, college student, sang "Old Man River" and "Give a Man a Horse He Can Ride." He was accompanied by Miss Koser at the piano.

Mrs. Buehler, chairman of the finance committee, announced that receipts for the year were \$8,897.72, disbursements \$5,598.89 and the balance is \$3,298.83.

Other reports submitted were the president's, membership, house, program, public affairs, world fellowship and reports from the various clubs.

Mrs. Kramer commended the outgoing board members on "their excellent work and achievements during the year." She introduced Miss Violet Kidwell, president of the Annie Danner Club; Mrs. Edith Bushman, president of the Business and Professional Women's Club; and Miss Doris Sanders, president of the BeeP Club.

The tables were decorated with yellow candles and lace dolly favors filled with mints. On the speakers' table were yellow carnations and purple iris. The favors were made by the B and P Club and the BeePs were designed by Susan Robinson of the Y-Teens and the dinner was prepared by Mrs. Ruth Johns.

## Carpenter Still Trying For Deals

CLEARWATER, Fla. (P)—Philadelphia Phillies President Robert R. M. Carpenter Jr., frustrated in attempting to deal with other clubs for talent this past winter, says he is still attempting to purchase or make a deal.

Carpenter last night named Bob Hoak or Bob Morgan of Brooklyn or Grady Hatton of Cincinnati as the players he is interested in. But the Phillies' president said no definite progress has been made.

"I realize that we need infield help, but the moment it seems to be a matter of who can hold out the longest," Carpenter said.

## TV FIGHT IN COLOR TONIGHT

NEW YORK (P)—The middleweight bout tonight between Germany's Gustav (Bubi) Scholz and Al Andrews of Superior, Wis., will be the first sports event ever telecast in color over a network.

But that won't affect reception as usual on your black-and-white set. The Madison Square Garden bout will be carried nationally by NBC. It will also be broadcast by ABC.

It starts at 10 p.m., EST. The unbeaten 23-year-old German middleweight, making his U.S. debut, is a 3½-1 favorite.

The odds are surprisingly big on a fighter who is making his first appearance, even though his record shows 49 wins, no losses, 2 draws and 28 knockouts. He has won 9 in a row, 8 by kayos.

In his gym workouts, the 5-9½, 156-pound Scholz indicated he knew his way around a ring. The southpaw is a fast puncher, shifty, and hits hard with his right as well as with his left.

Andrews, 23, making his Garden debut, doesn't figure to be a soft touch. He won 12 of his last 13 fights. He has a 26-5-1 record with 3 KOs.

acreage, in grass. He pointed out that pasture would require less labor than any other crop, would help build up the soil, provide extra income in the form of additional pasture for cattle, and not increase quantities of farm products now near the "surplus" stage. The nation has decreed wheat and corn acreage allotments to cut the increasing surplus on the market.

Penn State Speaker  
Zetzie also urged increased membership in the DHIA saying "with the cost-price squeeze at the present time, dairy farmers must get rid of the unprofitable animals in their herds, and the only way they can determine which cows are profitable is through the DHIA records program."

Charles R. Gearhart, Pennsylvania State University dairy specialist, described newer methods of management. He also reported that DHIA now has a new insurance policy covering both testers and the farmer members.

Next Thursday night, the Junior Chamber will hold a Charter Night banquet at the Legion Home, starting at 6:30 o'clock.

On Wednesday several Jaycees will represent Gettysburg at the annual District 4 political caucus to be held at Warner's Dairyland, Red Lion, Pa. The program, at which candidates for state office will be introduced, will begin at 7:30 p.m.

## KILLED BY TRAIN

CHESTER, Pa. (P)—A woman crossing the Pennsylvania Railroad tracks to catch a commuter train that would take her to work was struck and killed by another train this morning as her husband watched from a parked auto at nearby Primos station.

The victim was Mrs. Elizabeth Dolphin, 27, of Drexel Hill. Police said Mrs. Dolphin had been driven to the PRR station at Primos this morning to catch an 8:30 train. She was walking across the tracks when an inbound express from Media, not scheduled to stop at Primos, struck her.

RUSSIAN PAPER  
ACCUSES FOUR  
YANKS OF SPYING

By RICHARD KASISCHKE  
MOSCOW P — The newspaper Trud charged four members of the U.S. Embassy's military staff Thursday with spying on Soviet airfields and other important installations on a rail trip from Moscow to Vladivostok.

The embassy refused to comment on the charges.

Trud, the trade union newspaper, claimed the alleged espionage was revealed in military intelligence reports the Americans left behind in their compartment on the Trans-Siberian Express. It said the chief conductor found the papers at the end of the run.

The documents, it continued, "constitute an intelligence report on the main towns and stations between Moscow and Khabarovsk," an industrial and transportation center of 300,000 persons north of Vladivostok on the Manchurian border.

"Special attention was paid to

airfields, radio stations, industrial plants and the like," Trud said.

The four accused by the paper were Lt. Col. Howard L. Feichlin, Maj. Walter McKinney, Maj. Martin J. Manhoff and S. Sgt. Eugene Williams.

Trud published what it said were photostat copies of their papers and commented:

"If the above-mentioned persons would like to get back their documents, which evidently were forgotten in the rush, they can do so by calling at the porter's office."

The embassy would confirm only that the four men made a train trip to Vladivostok last September.

McKinney is now away from Moscow on leave. The other three refused to give their U. S. address, what Embassy Counselor Elim "We have no comment to make."

**Not Worth Comment**

Feichlin said at first he did not think the Trud charges were worth commenting on because "you know, black is white." Later he said he did not want to say anything except that he formerly lived briefly in Yuma, Ariz.

The Trud allegations—which so far have not appeared in any other paper here—caused a flurry in the Western diplomatic colony.

The charges were made in the form of a letter to the editor from

Missing Diamond Is  
Back After 12 Years

CENTRAL CITY, Neb. (P) — Twelve years ago Mrs. Roy Gwartney missed her diamond ring. The three-carat diamond was a family heirloom given her by her mother and she searched long and hard before giving it up as lost forever.

Now it has come back to her in the mail. A note told how the mailer took the ring, and added, "I had it reset. But you may have it all. Please forgive me."

Soviet employees on the trans-Siberian railway. They reported they found in the compartment occupied by the four Americans notes and sketches which constitute espionage. They listed notations on the locations of bridges, factories, airfield, etc.

Trud gave the letter a two-column display on the back page, the foreign news page.

The U.S. embassy's military attaché, Col. Earl Mickelson, of Silver City, N.M., also refused to comment or to give the home addresses of the accused. He said he refused to give the addresses because "I don't want to worry their parents back home."

PUSH EFFORTS  
TO GET CD FOR  
INDIANTOWN

HARRISBURG, Pa. (P) — Gov. John S. Fine and Sen. Martin (R-Pa.) today continued their effort to bring the nation's civil defense headquarters to the Indiantown Gap Military Reservation.

Fine expressed confidence in the possibility after touring the 20,000 acre reservation with civil defense and Army officials. Martin, in Washington, meanwhile, said he had asked Army Secretary Stevens to reconsider that Army's objection to use of the Gap by the CD.

Martin said Civil Defense Director Val Peterson wants the head-

quarters at Indiantown Gap and Stevens is also impressed with the area's "virtues."

Martin asserted that in a period of all-out mobilization the reservation could both house civil defense headquarters and handle Army troops. A spokesman here for Adm. Gen. Frank A. Weber said this was also the consensus of those who toured the Gap.

**Called "Suited"**

Martin said that, in a letter to Stevens and Peterson, he had asked them to examine the many state buildings at the Gap to see if they wouldn't be suitable for CD purposes. The Army rejection was of a proposal to use the Gap's hospital area.

Martin said the Gap is ideally suited for the purpose. "It is simply a matter of making the necessary arrangements and taking care of the administrative details."

Fine has stated that space is

Decorate Hotel Suite

TYLER, Tex. (P) — The Blackstone Hotel here is redecorating its governor's suite with straw and saw dust, Texas style, for a royal visitor.

Hotel manager Ralph Hitz Jr. said yesterday two or three calves sired by the \$230,000 animal would also be exhibited in the suite.

Tyler oilman B. G. Byars and rancher Bedford Wynne of Kaufman, Tex., bought half interest in the bull from Simon Brothers of Madison on March 1.

Mrs. Customer's only "bad-weather" play area for her children was in the basement. With an old-fashioned water heater there was too much danger from flame and heat to let children play there.

She called a MECO Water Heater Specialist and he showed her how a modern *Electric* Water Heater had no flame—was always cool on the outside—hot on the inside. Result? Her utility room is now the perfect place for the children to play—anytime.

### THE GUIDANCE OF THE SPIRIT

John 16:1-13

Key Verse: When the Spirit of truth comes, he will guide you into all the truth. John 16:13.

Jesus was preparing his disciples for the time, soon to come, when they would be without His companionship. They were expected to carry forward the work He had begun. He left no doubt about the difficulties and dangers they would encounter. They would be excommunicated from the synagogues. To a devout Jew that was a sharp blow. Some would be killed by those who believed they were serving God by so doing. Jews and His followers had frequently been in controversies and perils. But the Master was there to bear the brunt of it. Soon they would be "on their own." Would they stand bravely, or fall away

from the faith? The question may be asked of any modern Christian when faced with difficulties that test his loyalty.

But Jesus assured His followers they would not be left alone. He even declared it was to their "advantage" that He should go away from them. He would send the Spirit who represented Him and His Father. It is difficult to find the word that characterizes the Spirit as used by John in his gospel. The original Greek word means "one who stands by." In the King James version it is "Comforter"; in the Revised Standard Version, "Counselor"; in Dr. Moffatt's translation it is, "Helper." The work of the Holy Spirit includes all that is indicated here. The Spirit bears witness to what Christ has brought, and does bring, that is essential to the

faithful Christian life. Jesus at an earlier time promised what the Counselor would do: "The Counselor, the Holy Spirit, will bring to your remembrance all that I have said to you." How great a promise! His disciples did not fully realize what He meant until after Pentecost. Then much that was shadowy to them became clear. So we have in the Counselor the constant Reminder of what Christ expects of any followers in faith and practice. The only condition is that heart and mind remain open to the Holy Spirit. Many a time in those trying first years of the church did the Spirit come to the aid of almost discouraged disciples. In all ages the Spirit which the Father and the Son sent into the world has been a Helper to those who looked to Him for aid. In our present day of trial and confusion it is heartening to observe how an ever increasing number of men turn to God for wisdom and strength. We may confidently depend on the Counselor for light and direction.

There were many more things for His disciples to know but "you cannot bear them now." The Spirit would come and lead them "into all truths." He would know how much at a time they could understand of the eternal truths. So life under the guidance of the Spirit is a progression: "first the blade, then the ear, after that the full corn in the ear." # WHO? ME?

They're always talking about me! They say all sorts of things I can't understand: *Isn't she cute? Just a year old. Looks like her mother, doesn't she?*

I wish I knew what it all means. But they always smile when they talk about me—so it must be complimentary.

Frankly, I haven't a worry in the world. My Mamma and my Daddy always seem to know what's best for me. I'm sure they want to do everything possible to make mine a wonderful life.

I just hope they realize how important it will be for me to go to Church School. But, of course, being the wonderful parents they are, they'll realize that little souls must grow up just like little bodies. And they'll not only provide for my religious training—they'll set the Christian example that a little "princess" like me simply has to have.

## THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## NEW STATUS FOR EAST GERMANY CALLED "SHAM"

By ROBERT TUCKMAN  
BERLIN (AP)—Communist propaganda drums 'beat their loudest today to announce the Soviet Union had raised East Germany to the status of a fully sovereign state. The West promptly branded the Russian move a sham.

The Russians announced last night they hereafter would assume the same relations with the Communist East German government as "with other sovereign states," but would continue to keep their occupation army in the East zone to "safeguard security."

**New Maneuver**  
Western observers saw this as the latest in a long series of Soviet maneuvers to force official Western recognition of the East zone satellite—a campaign continually rejected by the Western Allies and the West German government on the grounds the Eastern regime does not represent the people.

The government-operated East German radio gave the announcement the full treatment, repeating it three or four times hourly.

But the U.S. State Department in Washington recalled the widespread worker revolts last June in East Germany and declared the "entire puppet regime would collapse under the weight of hatred and hostility of the populace" if Soviet troops were withdrawn.

## Will Get \$76,375 Of Garrett Fortune

PHILADELPHIA (AP)—The daughter of a cousin of the late Henrietta Garrett is to receive a \$76,375 share of the 17 million dollar Garrett estate.

An inventory of the will of Mrs. Elizabeth K. Zimmerman of Collingswood, N.J., yesterday showed that she had willed her share of the Garrett snuff fortune to her daughter, Mrs. Mary Louise Van Wyck of Philadelphia.

Mrs. Zimmerman, one of 26,000 claimants to the Garrett estate, died in 1935, five years after Mrs. Garrett. The estate was settled last year.

In Turkey, reacted similarly. He termed the announcement "just a phase of the propaganda battle of the East against the West" and said it "will not change the enslavement of the East German population."

The Soviet announcement said the East German Republic will be "free to decide... its own internal and external affairs, including the question of relations with West Germany."

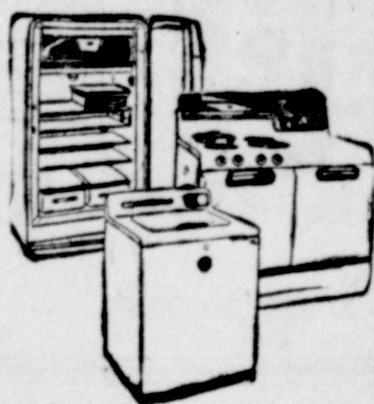

But it immediately added that the "Soviet Union retains in the (East) German Democratic Republic those functions which are connected with safeguarding security and which result from obligations arising from the U.S.S.R. from four-power agreements."

## POLICE PROBE TRIPLE KILLING

HOOD RIVER, Ore. (AP)—Authorities are trying to unravel the triple killing of a man, his wife and their former business partner in a store here.

The three were found shot to death Tuesday. The district attorney said it was murder and suicide. The bodies were identified as those of L. R. Donahue, 61; his wife, Evelyn, 38; and Hal Kilham, about 55. All had been killed by a shotgun.

Dist. Atty. Kenneth Abraham said he could not tell which of them did the shooting. He said Dr. Homer Harris of the state crime laboratory is being called in to try to unravel the story.

Abraham said the bodies were

around an oil stove in the rear of a war surplus store operated by the Donahues in the Heights District of Hood River. Kilham formerly was a business partner there, but moved to Umatilla to open a similar store there about three years ago.

The district attorney said the gun was atop the stove. He said the person who did the shooting apparently placed it there, and then pulled the trigger after killing the other two persons.

The bodies were found by a customer who wandered into the store. Police said the shooting apparently occurred at about 3 p.m. Tuesday.

# News Of Interest From Gas Appliance Dealers Of Adams County

## SURVEY SHOWS AIR CONDITION VERY HELPFUL

For the first time it is possible to prove that people who live in air conditioned houses are better off physically, financially — even mentally — than those who don't, a recent research revealed.

Results of interviews by representatives of the gas industry (American Gas Association) with 782 adults and 390 children residing in 325 gas all-year air conditioned homes, show that:

More than two thirds of the families queried had noticed improvement in the general health of all members of the household. In 224 homes, the family rested better at night, in 50 cases there were fewer colds, 68 reported relief from hay fever or pollen allergies, a large percentage credited improved atmospheric conditions in the home with having perked up appetites of family members, and the health and comfort of infants was benefited. Only 12 individuals, according to the report, claimed adverse effects.

### Medical Savings

Interviewees were asked if air conditioning had helped them save medical expenses. In 47 homes the answer was yes, in 180 no, and in 98 others no opinion was given. Among those who answered affirmatively, savings were judged to range from

\$25 to more than \$200.

"Is there any difference in the household cleaning work required in your all-year air conditioned home?" the gas company people asked. Two hundred and seventy housewives agreed there were important labor-saving advantages in the gas-operated systems. Among the benefits mentioned were:

Less time needed for dusting furniture, 244; less cleaning of walls and woodwork, 193; less use of domestic help, 38; less frequent cleaning of drapes and curtains, slip covers, rugs and upholstery, 190; and less redecorating required, 85.

Respondents praised all-year air conditioning as "making it easier to keep help, preventing mildew and other conditions induced by moisture condensation, and discouraging breeding of moths and other pests." Savings in cleaning expense, ranging from \$30 to \$550 a year, were claimed by housewives.

### Appetites Up

As to the effects of air conditioning on family eating habits, 36 homes expressed no opinion and 129 indicated there had been no noticeable change. On the other hand, 160 indicated that the family now was eating more meals at home, fewer felt impelled to visit air conditioned restaurants because their own homes now had the added comfort, and about a third of those interviewed said they had saved from \$50 to \$240 in a single summer by avoiding outside meals.

### VOTE WITH MAJORITY

WASHINGTON (AP)—U.S. Sens. Edward Martin and James H. Duff, voted with the majority yesterday as the Senate killed 64-25, a proposal to halve the 10 per cent excise tax on television and radio sets, phonograph records and musical instruments.

The Pennsylvania Republicans also voted with the 63-25 majority in defeating a proposal to reduce excise levies on automobiles from 10 to 7 per cent.

## MORE PA. TOWNS TO LEVY WAGE TAXES IN 1954

HARRISBURG (AP)—William S. Livengood Jr., secretary of internal affairs, reported Thursday that there will be "quite an increase" in the next few months in the number of municipalities levying local wage taxes.

"This will apply particularly in the western part of Pennsylvania due to enactment of a one-per cent wage tax by the city of Pittsburgh," Livengood said in a statement.

Thirty new levies of that type were imposed in Allegheny County alone in the last month after Pittsburgh levied the tax.

### Allowed By State Law

Under the 1947 local tax law, a municipality may impose a wage tax on non-residents working in that community. In practice, other communities nearby have followed through with identical levies. The local tax law authorizes municipalities and school districts to tax any subject, not taxed by the state. The 1951 Legislature refused to impose a wage tax on a state-wide basis, making that levy available for local units.

Report given to Livengood by Marielle Hobart, assistant director of the Bureau of Municipal Affairs, showed that 38 million dollars in such local taxes were collected in the 18-month period ending last July 31.

### 3,000 Taxes Now

Of that sum, school districts received more than half.

The report also showed that 2,305 municipalities and school districts now levy about 3,000 taxes under the local tax law. That's more than 45 per cent of 5,049 municipalities and school districts of the state, which have acted under the local tax law.

Some 1,600 local taxing units have imposed the per capita tax, which, with the amusement tax, are the most commonly used.

## EVACUATION OF CITIES, KILLER MISSILES TOPS IN DEFENSE PLAN

By EDWIN B. HAAKINSON

WASHINGTON (AP)—Informed senators said today that rapid mass evacuation of cities and improved aircraft killer missiles are key points in supersecret plans for defense against possible enemy atomic attacks.

Chairman Saltonstall (R-Mass.) called members of the Senate Armed Services Committee back into closed-door session today for any questions about the latest plans for continental defense.

With extreme caution, he announced that top-secret details of the defenses had been outlined yesterday at a lengthy closed session by Robert C. Sprague, North Adams, Mass., engineer and electronics manufacturer.

### Protection Not Complete

Saltonstall said Sprague had full cooperation of all top defense, intelligence and atomic agencies in making his independent survey for defenses against "the growing menace . . . because of Soviet developments in the nuclear and thermonuclear (hydrogen) fields."

His public statement said the senators got a picture of an "effective" defense which, however, could not guarantee "complete protection."

Other senators who listened to Sprague said rapid evacuation of urban and industrial populations was one of the protective measures advanced.

### To Expand Nike System

Another, they said, was expansion of the Nike installations now ringing 10 locations to about 30 or 35. Nikes are high-speed guided missiles designed to search out and destroy enemy aircraft.

Locations for Nike emplacements made public through approval of sites by congressional committees include Seattle, Pittsburgh, Philadelphia, Detroit, New York, Los Angeles, Boston, Chicago, Norfolk, Va., and Ft. Meade, Md., to protect both Washington and Baltimore.

Launched from a platform and able to travel 1,500 miles an hour—far faster than sound—the missiles are controlled by automatic electronic devices to seek out their targets.

Success of their operation as well as any mass evacuation rests upon advance warning through the network of radar, radio and communications equipment expected to detect any surprise air attacks.

Diseases carried to the Eskimos by the Europeans, chiefly smallpox and measles, have eliminated half the Eskimo population of the world in the past four centuries.

## McCarthy Will Testify And May Quiz Army Witnesses

By JAMES MARLOW

WASHINGTON (AP)—It is a rare day in the Capitol when a witness before a congressional investigating committee is allowed to cross-examine someone who has testified against him.

This is the usual procedure: the witness, at a table, faces the committee members sitting behind a long, raised desk. They shoot questions at him. He answers or refuses to answer.

If he refuses, he must have a good reason—for example, that his answer might incriminate him—or he faces jail for contempt of Congress.

The witness may be permitted to ask the committee members a couple of questions. This is neither

a cross-examination of them nor of some other witness who has said damaging things about him.

### McCarthy Is Witness

Now McCarthy is in the position of having to appear before his own subcommittee to answer its questions about his fight with the Army. And McCarthy insists he must be allowed to cross-examine witnesses against him.

It isn't final that he'll be permitted to do it. That will be decided when his subcommittee lays down its rules for the probe.

If McCarthy is refused cross-examining rights, he may appeal to the full Senate.

McCarthy, chairman of the subcommittee, already has stepped aside for this investigation, letting

Sen. Mundt (R-SD) act as chairman. And McCarthy has said he won't vote.

This voting may be important since all the witnesses will appear under oath and if the committee decides anyone is lying it can recommend the Justice Department take over the case for prosecution.

Since McCarthy is still a member of the subcommittee, he would have the right to sit behind the long desk with the other members when the hearing starts.

If they decide he can't cross-examine—that they'll do all the questioning—he might just as well sit out in the audience until his time to testify came.

But if he is allowed to quiz the

Army people testifying against him, there is no predicting either the outcome of the hearing or the direction it will take. He's a tough, relentless questioner and could, if he wished, drag in side issues. He says Army people should be allowed to question him too.

The four principals in the case are McCarthy and Cohn on one side and the Army, represented by its secretary, Robert T. Stevens, and its assistant legal counsel, John G. Adams, on the other.

Eggs are one of the few farm products in which Connecticut is self-sufficient, with production totalling about two dozen a week for every family in the state.

### Prayer For Needy And Homeless

The following prayer for the needy and homeless of the world, written by Bishop William C. Martin, president of the National Council of the Churches of Christ in the U.S.A., and president of the Council of Bishops of the Methodist Church, will be read in thousands of Protestant churches all over America on Sunday at special services in connection with the 1954 "One Great Hour of Sharing" United Appeal for overseas relief and reconstruction:

"Father of all mankind of every land and race, we thank Thee that Thou hast blessed our land and our people with good things from generation to generation even until now.

"We humbly confess that too often we have accepted these blessings as our right rather than as a trust from Thee.

"Too often we have forgotten Thy children of other races and climes who suffer because of the wickedness of man and the catastrophes of nature.

"Open now our eyes, we ask, that like our Master we may be filled with compassion when we see the multitudes in need.

"Help us to translate compassion into action and so to use Thy bounty bestowed on us that we may help them wisely in accordance with Thy will.

"In the name and in the spirit of the Master who went about doing good, we ask it all. Amen."

in the Fairfield Jointure. The public is invited to attend any of the classes held during the day, meet the teachers and become acquainted with the school organization. The Home Economics Class will serve refreshments at the high school.

Commencement May 26

On the evening of April 23, starting at 7 o'clock, the FFA Club and their class advisor, Miss Marie Weissfluh, will sponsor an "Indoor Carnival."
